

4 s Holm p · ICA · 16 features (Dataset A + Dataset B)

Rows 1–2 (above the line) are confirmatory and Holm-null. Orange cells are exploratory Dataset B hits, ICA-only; they are not a second primary. Holm is within feature across the 3 (A) or 4 (B) contrasts at 4 s, not across the 16 features. n=18. Source: epoch_length_grid_comparison.csv.
